

## BUSINESS IN CANADA IS GOOD

**Successful Crops and Big Yields Help the Railway.**

The remarkable fields that are reported of the wheat crop of Western Canada for 1915 bear out the estimate of an average yield over the three western provinces of upward of 25 bushels per acre. There is no portion of that great west of 24,000 square miles in which the crop was not good and the yields abundant. An American farmer who was induced to place under cultivation land that he had been holding for five years for speculative purposes and higher prices, says that he made the price of the land out of this year's crop of oats. No doubt, others, too, who took the advice of the Department of the Interior to cultivate the unoccupied land, have done as well.

But the story of the great crop that Manitoba, Saskatchewan and Alberta produced this year is best told in the language of the railways in the added cars that it has been necessary to place in commission, the extra trains required to be run, the increased tonnage of the grain steamers.

It is found that railway earnings continue to improve.

The C. P. R. earnings for the second week of October showed an increase of \$762,000 over last year, the total being only \$310,000 below the gross earnings of the corresponding week of 1913, when the Western wheat crop made a new record for that date. The increase in C. P. R. earnings for the corresponding week of that year was only \$351,000, or less than half of the increase reported this year. The grain movement in the West within the past two weeks has taxed the resources of the Canadian roads as never before, despite their increased facilities. The C. P. R. is handling 2,000 cars per day, a new record. The S. T. R. and the C. N. R. are also making new shipment records. The other day the W. Grant Morden, of the Canada Steamship Company, the largest freighter of the Canadian fleet on the Upper Lakes, brought down a cargo of 470,315 bushels, a new record for Canadian shipping. Records are "going by the board" in all directions this fall, due to Canada's record crop. The largest Canadian wheat movement through the port of New York ever known is reported for the period up to October 15th, when since shipments of the new crop began in August, 4,265,791 bushels have been reloaded for England, France and Italy. This is over half as much as was shipped of American wheat from the same port in the same period. And, be it remembered, Montreal, not New York, is the main export gateway for Canadian wheat. New York gets the overflow in competition with Montreal.—Advertisement.

### Long Day.

John was grieving because he had no gift for his mother's birthday.

"Do not quarrel with little sister all day," suggested grandmother.

"That would be the best gift she could have," John agreed.

"Can't you see how much mother enjoyed your gift, John?" asked grandmother at night. "Why don't you do this every day?"

John drew a breath that came from his very boots.

"I'd rather die, grandma, than live like this every day!" he said fervently.

## Rest Those Worn Nerves

Don't give up. When you feel all unstrung; when family cares seem too hard to bear, and backache, dizzy headaches, queer pains and irregular action of the kidneys and bladder may mystify you, remember that such troubles often come from weak kidneys and it may be that you only need Dean's Kidney Pills to make you well. When the kidneys are weak there's danger of dropsy, gravel and Bright's disease. Don't delay. Start using Doan's now.

## The Power behind the dough

You may use an old favorite recipe and the best of materials and make it carefully, the oven may be just right, yet you will have a failure if "The Power behind the Dough" is not the right one to leaven it properly and make it light, digestible, wholesome.

Good baking without good baking powder is out of the question. KC Baking Powder has wonderful leavening power, and the double action—in the bowl and in the oven—makes good results doubly certain.

Takes no chances of failure—use KC and have "good luck" every time. At all Grocers.

## Bumper Grain Crops

### Good Markets—High Prices

Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grases, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate, and other great attractions. There is no war tax on land and no conscription.
